PFC ACADEMY SCHOOL OF PROCTOLOGY AND PELVIC FLOOR DISEASES - PISA

Chief: Dr Gabriele Naldini

FROM MONDAY 10TH TO FRIDAY 14TH JUNE 2024

EDUCATIONAL PROGRAMME

PISA - ITALY

PRESENTATION

The PFC Academy School of Proctology and Pelvic Floor Diseases is dedicated to enhancing the proficiency in constructing a correct clinical framework, interpreting pre-operative tests, providing accurate surgical indications, and ultimately elevating the standard of surgery. These objectives will be achieved through the guidance of our team of highly skilled coaches.

The instructional focus will center on live surgeries broadcasted in high definition, accompanied by step-by-step discussions of surgical techniques through edited and semi-edited videos. This approach aims to dissect crucial steps and present various surgical options.

The course will also delve into the analysis of surgical indications and the management of potential complications, relying on literature to substantiate best practices.

Our program will feature a roster of Italian and International Key Opinion Leaders (KOL) who will take turns delivering lectures and participating in the operating room. While the lectures will draw from surgical literature, we will emphasize the invaluable contribution of personal insights from KOLs, enriching the experience for all participants.

The intensive 5-day course (Monday to Friday) will include live surgeries every morning, lectures, step-by-step analysis of surgical procedures using partially edited videos, a special session on anal and pelvic floor ultrasound with image processing, interpretation, and discussion, as well as the inclusion of national and international guest speakers.

TARGET AUDIENCE

This program is designed for surgeons specializing in general surgery and surgical residents with a keen interest in the study and treatment of proctological and pelvic floor diseases.

ADMISSION REQUIREMENTS

Applicants should possess a postgraduate specialization in General Surgery or related disciplines and be residents in the final two years of General Surgery.

OBJECTIVES

- ✓ Acquire the necessary elements for correctly clinically, diagnostically, and therapeutically framing proctological diseases of the pelvic floor in a correct way.
- ✓ Analyze diagnostic examinations, discussing the indications, procedures, and interpretation of results to facilitate optimal therapeutic decision-making.
- ✓ Share surgical techniques through live surgeries and discussions of didactic videos.
- ✓ Introduce new technologies with discussions on potential advantages.
- ✓ Develop the ability to recognize and manage complications.
- ✓ Foster the concept of a multidisciplinary team for the elaboration and management of shared protocols for the treatment of complex pelvic floor pathology.

ORGANISATION OF THE PFC ACADEMY SCHOOL

5 days (Monday/Friday) at PFC Academy School Headquarter

LOCATION: PFC ACADEMY SCHOOL HEADQUARTER

Proctology and Pelvic Floor Multidisciplinary Clinical Center of Pisa
Azienda Ospedaliero-Universitaria Pisana - Via Paradisa, 2 - 56124 PISA -
Italy

NUMBER OF PARTICIPANTS: 20maximum

DATES AND TIMETABLES

MONDAY 10th to FRIDAY 14th JUNE 2024

Monday/ Thursday from 8.00 a.m. to 6.00 p.m.

Friday from 8.00 a.m. to 2.00 p.m.

LANGUAGE: ENGLISH

SCIENTIFIC PROGRAM

MONDAY June 10th 2024

08:00 am Welcome & Introduction
G. Naldini

From 8:10 am

To 02:00 pm Operating Room
(Perianal fistulas, pilonidal sinus, analysis of new technologies, fissures)

02:00 pm *Light-Lunch*

03:00 pm Clinical classification of anal fistulas:
Preoperative work-up, which treatment for which fistula. Is there still a role for seton and flap?

B. Fabiani

03:15 pm Interactive discussion

03:30 pm Focus on
Anal fistula: Persona point of view

P. Garg

03:45 pm Interactive discussion

- 04:00 pm Therapeutic options in anal fistulas treatment: MSC, VAAFT, LIFT
A. Sturiale
- 04:15 pm *Interactive discussion*
- 04:30 pm Pilonidal cyst: preoperative assessment, which treatment for which clinical presentation
V. d'Adamo
- 04:45 pm *Interactive discussion*
- 05:00 pm Focus on:
Laser for fistula and sinus
C. Blumberg
- 05:15 pm *Interactive discussion*
- 05:30 pm Anal fissure: surgical options and results
P. Garg
- 05:45 pm *Interactive discussion*
- 06:00 pm *Closing Session*

TUESDAY June 11th 2024

From 8:10 am Operating Room Robotics

To 10:02:00 pm (Multidisciplinary pelvic floor and therapeutic strategies, chronic pelvic pain, ultrasound and radiological diagnostics)

In the breaks between surgeries:

- 08:30 am Multicompartmental prolapses: therapeutic flow chart
E. Russo, B. Fabiani
- 08:45 am *Interactive discussion*
- 12:00 am Video session and interactive discussion on pelvic floor prolapse surgery
T. Simoncini
Interactive discussion
- 02:00 pm *Light-Lunch*
- 03:00 pm Complex Pelvic organ prolapse management in India
P. Garg
- 03:15 pm *Interactive discussion*
- 03:30 pm Diagnosis and management of chronic pelvic pain
V. Licitra
- 03:45 pm *Interactive discussion*

04:00 pm Ultrasound and radiological diagnostics in proctological and pelvic floor disorders

G. Santoro

04:15 pm *Interactive discussion*

04:30 pm Team building: analysis and interactive discussion on ultrasound and radiological tests

G. Santoro, A. Sturiale

04:45 pm *Interactive discussion*

06:00 pm *Closing Session*

WEDNESDAY June 12nd 2024

From 8:10 am Operating Room

To 02:00 pm (Haemorrhoids, prevention and management of complications in proctology, Sexually Transmitted Diseases Management)

02:00 pm *Light-Lunch*

03:00 pm Clinical overview of haemorrhoidal disease: preoperative work-up, which treatment for different clinical presentation

A. Sturiale

03:15 pm *Interactive discussion*

03:30 pm Therapeutic options for the treatment of haemorrhoidal disease: my point of view

P. Garg

03:45 pm *Interactive discussion*

04:00 pm Focus on: Laser for haemorrhoids

C. Blumberg

04:15 pm *Interactive discussion*

04:30 pm Prevention and management of complications in proctological and pelvic floor surgery

G. Naldini

04:45 pm *Interactive discussion*

05:00 pm Diagnostic and therapeutic flow chart in STDs

M. Mistrangelo

05:15 pm *Interactive discussion*

05:30 pm Focus on: role of HRA in the diagnostic-therapeutic path of
STDs

C. Menconi

05:45 pm *Interactive discussion*

06:00 pm *Closing Session*

THURSDAY June 13th 2024

From 8:10 am Operating Room

*To 02:00 pm (Faecal incontinence, double incontinence, OASIS and
rectovaginal fistulas)*

02:00 pm *Light-Lunch*

03:00 pm Clinical work-up of faecal incontinence

A. Sturiale

03:15 pm *Interactive discussion*

03:30 pm OASIS and sphincter repair: techniques and results

M. Mistrangelo

03:45 pm *Interactive discussion*

04:00 pm Sphincter augmentation and regenerative surgery for anal
incontinence

C. Ratto

04:15 pm *Interactive discussion*

04:30pm NMS: state of the art

C. Menconi

04:45 pm *Interactive discussion*

05:00 pm Rectovaginal fistulas: comparison of surgical approaches in
different clinical presentation

C. Ratto

05:15 pm *Interactive discussion*

05:30 pm Management of recurrence and complication after RV fistula
surgery

M. Mistrangelo

05:45 pm *Interactive discussion*

06:00 pm *Closing Session*

FRIDAY June 14th 2024

From 8:10 am Operating Room

To 02:00 pm (Internal and external rectal prolapse)

In the breaks between surgeries:

Transanal treatment of internal rectal prolapse and our results

B. Fabiani

Interactive discussion

Transperineal treatment of external rectal prolapse

C. Ratto

Interactive discussion

02.00 pm Closing and Remarks
UEMS Evaluations test

FACULTY

Director of the School

Gabriele Naldini - Pisa - (Italy)

TEAM

Vittorio d'Adamo - Pisa - (Italy)

Laura Del Bono - Pisa - (Italy)

Bernardina Fabiani - Pisa - (Italy)

Claudia Menconi - Pisa - (Italy)

Eleonora Russo (Gynaecologist) - Pisa - (Italy))

Tommaso Simoncini (Gynaecologist) – Pisa -Pisa - (Italy)

Alessandro Sturiale – Pisa Pisa - (Italy)

SPECIAL GUEST

Claus Blumberg - Germany

Prakaj Garg - India

Massimiliano Mistrangelo – Torino - (Italy)

Carlo Ratto - Roma - (Italy)

Giulio Aniello Santoro - Treviso - (Italy)

ENROLMENTS

Procedure:

Requests for participation must be sent by email to the Organizing Secretariat (info@askservice.it) within 30 days of the registration deadline. Once the application is accepted, the registration form will be sent, including payment details. Please note that registration will be finalized only upon payment of the fee. Selection will be based on the date of application.

Maximum Number of Participants:

Twenty participants will be admitted, including two surgery residents in their last two years. Selection will be based on the date of application.

The registration fee is € 1,000.00 + VAT 22%

Registration includes:

Didactic activities (as program);

5 Light Lunches

2 social dinners

Final Diploma

EUROPEAN MEDICAL TRAINING: An application has been made to the UEMS EACCME® for CME accreditation of this event”.

Please note that the registration fee does not include accommodation and travel costs (for information and affiliated locations, contact the organizing secretariat).

Deadline registration: 15TH Aprile 2024
